Stately Evergreen Trees

EVERGREENS ARE DUG, BALLED AND
BURLAPPED (B&B) at prices quoted.

Only the Evergreens are Left After the
Autumn Leaves Flare and Fall

There are no more beautiful things in nature than well-grown, well-cared-for evergreens. They are cool-looking in summer and cozy-looking in winter. There is no end to their uses. Well-grown specimen plants increase in beauty with the years.

*Suitable for foundation plantings

Ground Covering Plants

Just as their name implies, the following plants are suitable for covering the ground under trees and other places where grass won't grow. Although primarily foliage plants, some have blooms. Some have roots that spread and send up new top growth, some spread by sending out trailers that take root, and others merely grow more or less prostrate, spreading out as they enlarge to cover a greater area of ground each year.

Note:—Figures after the names give approximate heights reached by the trees and shrubs under favorable conditions.

TREES B&B (Balled and Burlapped)

Unless otherwise marked "B&B" (Balled and Burlapped), trees are dug bare rooted when dormant. Should balling and burlapping be desired on trees not marked "B&B," an extra charge will be made.

Heights given with caliper measurements are general average and are approximate only. Where no caliper is given, the height is the governing measurement.

After the regular bare-root digging season is passed, this material must be dug with a ball and, since considerable time, labor, and soil are involved, balling and burlapping will be charged. Prices quoted on request.

OVERSIZED TREES

Catalog space does not permit us to list the hundreds of large, oversized, beautiful trees in which we specialize. The saving of time in planting such trees is so marked that scarcely any home owner can afford to plant the usual small tree which would require many years to equal these in size.

If you are interested in oversized trees, ask us for a list of our large stock.

Deciduous Shrubs

FOR FLOWERS, FOLIAGE, BERRIES

Any true lover of nature will find a world of joy and happiness watching the striking and fascinating changes in flowering shrubs throughout the season. They are a delight from the first mild spring day, when the buds begin to swell, until late in autumn, when the leaves are resplendent in their festive colors and brilliant berries.

We are only able here to acquaint the reader with a very small portion of this wealth of beauty. Generous planting of shrubs around the home will repay in beauty and pleasure many times over the small investment required.

SHRUBS B&B (Balled and Burlapped)

Unless otherwise marked "B&B" (Balled and Burlapped), shrubs are dug bare rooted when dormant. Should balling and burlapping be desired on shrubs not marked "B&B," an extra charge will be made at the following rates.

After the regular bare-root digging season is passed, this material must be dug with a ball, and since considerable time, labor and soil are involved, balling and burlapping will be charged at these rates.

Hedge Plants

A living fence, made from growing plants, attractive with their green leaves and formally trained or arched branches, is a part of the grounds and garden, and is surely more ornamental than an artificial fence. A hedge is permanent. Once planted, only occasional trimming or shearing is required.

DWARF APPLE TREES

THAT BEAR FULL SIZE FRUIT

Ideal for planting in limited space!

Our trees are grown on Malling No. 9 root stock which assures you of the dwarfest and hardiest plant.

PRICES:		Each
4-5 ft.		4.50
5-6 ft.		6.00

Varieties: Baldwin, Cortland, Double Red Delicious, Yellow Delicious

Dwarf Apple Trees are the Delight of the Small Home Owner because:

1. Delicious for eating, canning and freezing.
2. Start producing fruit within a couple years.
3. Fruit as large as standard.
4. Small investment that increases each year.
5. Easy to pick on the trees.
6. Easy to prune and spray.
7. Extremely attractive during early spring with gorgeous flowers.
8. Matured height about 8 ft.
9. Can be planted 10-15 ft. apart.

For best results, plant 2 or more varieties for pollination.

REMEMBER — foliage and flowers are attractive for landscape plantings and fruit is top quality for eating.

HARDY NUT TREES

NEW HYBRID SWEET CHINESE CHESTNUT

HARDY, BLIGHT RESISTANT — EARLY BEARER. As a result of the U. S. Dept. of Agriculture research, these trees are not subject to the fatal blight which killed out all the old American Chestnut trees. The fruit is fully as delicious as the native Chestnut and slightly larger. Have the thrill of roasting Chestnuts from your own trees over an open fire! Not only do these trees produce large, delicious full-flavored Chestnuts at an early age, but their beautiful rounded, spreading branches rapidly develop into a lovely tree to grace any home lawn.

The trees we offer are just ready to come into bearing. Plant 2 for best results. The **QUANTITY IS LIMITED, SO BETTER ORDER YOURS EARLY.**

Reasonably priced at
\$7.50 for 4-5 ft. trees.

AMERICAN BLACK WALNUT

The common Black Walnut familiar to everyone, very hardy, grows anywhere. Yields heavy crops of fine, well filled, large delicious nuts that are in great demand. The tree is a rapid grower, of majestic form; valuable for timber.

Cultural Directions

Easy to Plant

Plant 2 or more varieties for perfect pollinization. Set 5x5 ft. apart. Mix in liberal quantities of Corliss #2 mixture especially prepared for Blueberries (2 lbs. per 1 ft. of height) when planting.

Keep well watered at all times unless you have them planted in a spot where natural moisture abounds.

After they have become established they should be given a little Aluminum Sulphate each year which acidifies the soil.

Everyone of our bushes offered for sale, bore heavily last year.

This is one of our plantings of Blueberries from which your plants are freshly dug. Acclimated to New England — they're better!

3 BRAND NEW HARDY *Mums* LEADING THE WAY!

with **GLORIOUS COLORS — LARGE DOUBLE FLOWERS — LONG BLOOMING PERIOD**

Corliss **ORIGINATIONS**

These 3 new mums were chosen by the New York Herald Tribune New Plant Forum as outstanding introductions for 1951.

GENERAL MacARTHUR

A deluge of glowing coppery-red. The 2½-3 inch blooms seem to glow in the sunlight and even on dull days like new shiny copper pennies. The stems are upright, rigid and graceful, not easily broken down by violent storms. The beautiful dark leaves are very resistant to disease. GENERAL MacARTHUR mum is a lavish producer from August through to heavy frosts.

GENERAL MARSHALL

This mum absolutely defies description. The ray florets are a rich harmony of deep old rose, purple and gold with light buff reverse, slightly incurved, making the petals appear edged with gold. The beautiful rich green foliage is clean and healthy from the base throughout the plant. GENERAL MARSHALL is one of the last mums to remain in bloom.

GENERAL BRADLEY

Exquisite blooms of a superb blending of lovely apricot, seashell-pink and buff in long stemmed clusters from Aug. to heavy frosts. GENERAL BRADLEY has all the desired traits one would want in a mum — glorious long-lasting and profuse flowering; beautiful form; rich healthy green foliage; and extreme hardiness.

AS STALWART AND MERITORIOUS AS THE FAMOUS GENERALS THEMSELVES!

- ★ FLOWERS FROM AUGUST TO HEAVY FREEZES
- ★ NICE LONG STEMS
- ★ EXTREMELY HARDY
- ★ LAVISH PRODUCERS

- ★ LARGE DOUBLE BLOOMS
- ★ EXCELLENT FOR CUTTING
- ★ COMPACT BUSHY PLANTS
- ★ DISEASE RESISTANT

- ★ FROST RESISTANT
- ★ RICH DARK FOLIAGE
- ★ VIGOROUS & STURDY
- ★ HEIGHT 2½-3 FT.

These mums withstood very droughty summers, torrential rains and severe winters on the rugged coast of Massachusetts.

Without being boastful, we think CHRYSANTHEMUMS GENERAL MARSHALL, GENERAL MacARTHUR and GENERAL BRADLEY are three of the greatest hardy chrysanthemums ever produced, worthy in every respect to be named for these great soldiers and destined to be favorites for many years.

STRONG POT PLANTS — \$1.00 each; \$2.75 per 3 of one kind; \$10 per doz. of one kind.

ROSES—Continued

Eclipse (Plant Patent No. 172). 2½ ft. The "streamlined" buds are ornamented with narrow branching sepals which contrast harmoniously with the golden yellow of the petals. Dependable for almost continuous bloom on strong, upright plants with healthy, dark green foliage. \$2.00 each; \$22.20 per doz.

Edith Nellie Perkins. 2-2½ ft. An indispensable rose. Long-pointed buds opening to fragrant, double, Oriental red blooms shaded cerise-orange; inside of petals salmon-pink.

Golden Dawn. 2 ft. A splendid, large, double lemon-yellow rose, splashed with crimson. The well-formed blooms are sweetly scented. Vigorous and free flowering.

Grenoble. 2½ ft. Crimson buds open to glowing scarlet-crimson blooms. The flowers are fully double of large size, on unusually long stems. Good for cutting.

McGredy's Ivory. Lovely large flowers of soft, delicate, creamy white merging into yellow at the base. Moderately fragrant, and disease resistant.

McGredy's Scarlet. 2-3 ft. Freely produced, fragrant, double flowers of brilliant scarlet, orange-yellow at base of petals. Strong vigorous grower.

McGredy's Sunset (Pat. No. 317). A world favorite. Medium sized flowers with outside petals of buttercup-yellow, tipped orange; inside chrome-yellow flushed with scarlet as they expand; freely borne on strong stems, fragrant. \$2.00 each; \$22.20 per doz.

Miss Rowena Thom. Long-pointed buds open to enormous delightfully fragrant rose-pink blooms, fine for cutting.

Mme. Joseph Perraud. 2½ ft. A Gold Medal Winner and popular all over the country. Long-pointed, sunset yellow buds opening to pastel buff flowers, charming and fragrant.

Mrs. E. P. Thom. 2 ft. An outstanding favorite. Clean, healthy, vigorous growth; disease-resistant foliage; continuous free bloomer throughout the season. The good-sized buds are long and develop into full, double, very shapely flowers of a rich deep lemon yellow.

Mrs. Pierre S. duPont. An outstanding yellow rose. Long-pointed buds of reddish gold opening to a semi-double, fragrant flower of deep golden yellow. The blooms are profuse and continuous. Vigorous, strong and compact.

Mrs. Sam McGredy. 2½ ft. One of the most beautiful roses. Long-pointed buds and large attractive blooms of copper orange-scarlet, with deep red shadings on outside of petals. Moderately fragrant.

THE ALL-AMERICAN WINNER

WE RECOMMEND POTTED ROSES

**Already Planted and in Good Growing Condition
Ready for Transplanting from June 1st on**

As our Potted Roses are not ready to be set into your garden until June 1st, we advise that you **place your order early** so we may reserve for you the varieties you wish.

\$1.65 each; \$18.00 per doz. unless otherwise noted.

This modern way of selling roses eliminates all danger of them not starting or dying after being planted in your garden, due to improper handling and planting. When you purchase **POTTED ROSES**, they are already planted properly in specially prepared, fertilized soil to insure rapid, permanent growth and bloom.

Our **POTTED ROSES** may be transplanted successfully in your garden any time during the growing season by simply tearing away the pot and setting the plant into the bed without disturbing the soil or root system.

Everblooming Hybrid Teas

Charlotte Armstrong. (Pat. No. 455) One of the top 10 varieties. Magnificent open blooms of vivid cerise on long stems; semi-glossy deep green leaves. \$2.00 each; \$22.20 per doz.

Christopher Stone. 2½ ft. This rose of dazzling scarlet-crimson is noted for its alluring Damask fragrance and almost continuous bloom. Towards fall, the flowers become deep crimson with velvety blackish shadings.

Countess Vandal (Plant Patent No. 38). 2 ft. The most popular variety at the Century of Progress. A lovely coppery pink and gold; extra long, pointed buds. \$2.00 each; \$22.20 per doz.

Crimson Glory (Plant Patent No. 105). 2 ft. A tremendous, fascinating rose. Vigorous, free-flowering, compact bushes, well-formed, deep velvety crimson flowers. \$2.00 each; \$22.20 per doz.

Chevy Chase ((Pat. No. 443). The finest of Rambler Roses. Clusters of mildly fragrant, rich crimson blooms that last for several weeks. Beautiful, mildew-resistant foliage. The numerous canes will cover a large area. \$2.00 each; \$22.20 per doz.

Climbing Break O'Day. Very vigorous everblooming climbing sport of "Break O' Day." Exceptionally large, double flowers of lovely soft, apricot-orange. A subzero rose of exquisite fragrance. \$2.50 each; \$28.20 per doz.

Dr. J. H. Nicholas. (Plant Pat. 457). This fragrant pillar Rose is sensational in the size of the beautiful 50-petaled rose-pink flowers which are like large Hybrid Teas. When they are spent, just pinch them off and new flowers will form, but not as profusely as in June. \$2.00 each; \$22.20 per doz.

Elegance. This vigorous growing Climbing Rose gives a magnificent display of fragrant yellow flowers which are large and perfect form. The inner petals are spectrum-yellow and the outer ones shade to creamy white. Disease-resistant, lustrous dark green foliage. \$2.00 each; \$22.20 per doz.

Mary Wallace. A Pillar Rose with large, glossy foliage, blooming with great freedom about the middle of June, and bearing a large number of fine buds in summer and fall. Flowers very large, semi-double, of bright, clear rose-pink with salmon base.

New Dawn (Everblooming Dr. W. Van Fleet) (Plant Patent No. 1). The first really worthwhile everblooming hardy Climber. Light pink flowers continually from early summer until frost.

Paul's Scarlet Climber. A popular Climbing Rose of moderate vigor, highly prized for its clusters of medium-sized, vivid scarlet flowers in June and early July, remaining in good condition for a long period.

Prosperity. The hardiest, most continuous blooming double white Pillar Rose. The clusters of globular pinkish white buds open to large double, pure white blooms.

White Dawn. America's finest Everblooming White Climbing Rose. Produces hundreds of pure white, completely double blooms resembling gardenias. Hardy. \$2.00 each; \$22.20 per doz.

Hardy Perennial and Rock Plants

We offer here a selection of leading new and outstanding perennial novelties, grown and propagated at our own nurseries, where the climate is humid in the summer, cold, with bitter winds, in the winters. These extremes of weather produce rugged plants, so we are confident they will thrive almost anywhere.

The material we offer is strong, field-grown stock with the exception of some varieties which transplant better from pots.

Note.—Figures after the description and blooming dates represent the approximate height reached by the perennials under favorable conditions.

***SUITABLE AS ROCK GARDEN PLANTS, ALSO**

PRICES OF PERENNIALS

Unless otherwise noted, the price of Perennials is 40c each; \$1.10 per 3 of one variety; \$4.00 per dozen. Six or more plants of one variety will be sold at the dozen rate. Twelve plants of different kinds, such as twelve different varieties of Phlox, will not be sold at the dozen rate, but at the each rate. The dozen rate applies only when six or more plants of ONE VARIETY or COLOR are ordered.

Oversize clumps obtainable at special prices.

UNIVERSITY OF MINNESOTA VARIETIES:

This entirely new race of garden Chrysanthemums, is admirably adapted to locations subject to early frosts because of their very early flowering habits, long blooming period and high degree of hardiness.

Aurora. Masses of large, bright red, semi-double flowers becoming lighter with age, on low compact plants. Mid-Aug. 18 in. Pot plants.

Butterball. Double, dark lemon-chrome ball-like flowers in Mid-Aug. at its best in mid-Sept. 2 ft. Pot plants.

Chippewa. Magnificent flowers with incurved petals of rich aster-purple in large clusters. Early Sept. 2-2½ ft. Pot plants.

Dee Dee Ahrens. This plant produces a multiple of double pure white flowers on long stiff slender stems. Aug. 2-2½ ft. Pot plants,

Unless otherwise noted, all plants on this page are 40c each; \$1.10 per 3 of one variety; \$4.00 per doz. of one variety. (Six or more plants of one variety at dozen rate.)

NEW SUMMER FLOWERING CHRYSANTHEMUMS

(Continued)

Glacier. Extra large, pure white flowers of lovely shape are produced in loose clusters sparingly in Aug., by early Sept. the whole top of the plant becomes a mass of white. 2 ft. Pot plants.

Dr. Longley. The best Minnesota variety to date. The non-fading, bright pink flowers fully double and very large, wonderful for cutting, are freely produced from late Aug. till heavy frost. 2 ft. Pot plants, 65c each; \$1.70 per 3; \$6.50 per doz.

Maroon 'n Gold. Blooms are large, full, maroon-red above and golden on the under side. Aug. through fall. 18-24 in. Pot plants.

Moonlight. Large, fully double white flowers having centers of pale yellow to ivory are produced in large sprays good for cutting. Early Sept. 15-18 in. Pot Plants. 65c each; \$1.70 per 3; \$6.50 per doz.

Redgold. Double bright scarlet and gold flowers resemble pompom dahlias, Mid-Aug. 2-2½ ft. Pot plants.

Redhawk. The double flowers in clusters are a striking Dragon's blood red. Mid-Aug. 18-24 in. Pot plants.

Sunred. The flowers are much like those of Chippewa, but color is a bright Brazil-red; large, semi-double. Early Sept. 2-2½ ft. Pot plants.

Violet. Very full, double deep pansy-purple flowers. Aug. 20-24 in. Pot plants.

UNIVERSITY OF CHICAGO MUMS:

These varieties make lovely mounds of color in borders until heavy freezes spoil the display.

Calendula. Large, deep chrome yellow double flowers are freely produced from early Sept. on. 2 ft. Pot plants.

Harbinger. The glorious color of fall maples is in these fully double incurved flowers of bronze, tipped light red. Aug. 20-24 in. Pot plants.

Olive Longland. Large, double flowers of exquisite soft apricot-gold and salmon tones. Sept. 2 ft. Pot plants

Robert Brydon. Fully double, deep garnet-red flowers on dense, bushy cushion-type plants. Late Aug. on 18 in. Pot plants.

UNIVERSITY OF NEBRASKA MUMS:

These new varieties, the result of breeding work at the North Platte Sub-station of the Univ. of Nebraska, make a fine addition to our listing of Hardy Chrysanthemums.

Cody. Named in honor of "Buffalo Bill" Cody. The flowers are semi-double and the coloring orchid with white center, is unusual. Fully opened blooms often show a small yellow disk. The plant has a valuable habit of covering fading flowers with new growth. Dense, compact plants which might be classed as "Cushion" type, but differs in being low and rather flat topped. July to heavy frosts. 12-15 in. Pot plants, 65c each; \$1.70 per 3; \$6.50 per doz.

Unless otherwise noted, all plants on this page are 40c each; \$1.10 per 3 of one variety; \$4.00 per doz. of one variety. (Six or more plants of one variety at dozen rate.)

WARNING!

Our Massachusetts SOILS are so badly DEPLETED of FOOD VALUES that CONDITIONS are really serious.

The Government will help the farmer. The INDIVIDUAL must HELP himself.

If each HOME OWNER will have the SOIL tested and ACT before planting a lawn, garden, flowers, trees, or shrubs, GREAT PROGRESS can be made toward bringing SOILS back to GOOD FERTILITY.

EACH will be contributing his or her part in building up the BASIC WEALTH of our country and assure BETTER PROSPECTS for future growth. CORLISS BROS. Planting Directions

BALLED and BURLAPPED MATERIAL:

Dig holes 18" larger than diameter of ball and 6" deeper than the depth of the ball. Save top-soil, discard sub-soil. Mix, at least 3 times, prescribed amounts of assembled fertilizer with saved top-soil or new loam for proper blending. Spade enough of soil-fertilizer mixture into bottom of hole to insure ball being set at original plant depth as indicated by different bark color. Fill in hole around ball half full. Tamp well. Cut strings and burlap flush with filled-in soil. Fill hole with water and allow to soak in. Complete filling hole with mixture, leaving top saucer-shaped to catch moisture. Water weekly.

BARE ROOT MATERIAL:

The diameter of the hole should be dug at least 2 feet larger than root spread, and 12" deeper than depth of roots. Save top-soil, discard sub-soil. Spade enough of soil-fertilizer mixture into bottom of hole to insure plant being set at original depth as indicated by different bark color. Trim broken root ends. Set plant in hole and fill hole half full of mixture, shaking plant up and down several times to work soil around roots. Tamp well. Fill hole with water. After water has soaked in, complete filling in, leaving surface saucer-shaped to catch water. Stake all trees over 2" caliper, using rubber hose through which run wires to avoid chafing. Water weekly.

Suggested Amounts of Organic Mixtures:

- EVERGREENS**—5 lbs. Corliss #1 mixture per ft. of height or spread.
EVERGREEN HEDGES—2 lbs. Corliss #1 mixture per foot of height per plant
EVERGREEN SHRUBS—3 lbs. Corliss #2 mixture per foot of height. (Euonymus—3lbs. #3 Mix per ft.)
